Photovoltaic Micro-station Energy Cabinet

Model	HJ-SZ03-05
Power	3KW (maximum 6KW)
Maximum Energy Storage Capacity	5KWh
Energy Input/Output	Mains/Photovoltaic/Energy Storage
Usage Environment	Outdoor
Installation Method	Wall-mounted/Pole-mounted
Dimensions	700mm * 550mm * 400mm

> Product Introduction

A highly integrated and intelligent hybrid power system that combines multi-input power modules (photovoltaic, wind energy, rectifier modules), monitoring units, power distribution units, lithium batteries, intelligent switches, FSU, and ODF wiring, effectively meeting various functional requirements such as power supply, backup power, and optical network access for base station communication equipment.

> Product Features

-  Low-carbon and energy-saving
-  Simple installation method
-  Intelligent operation and maintenance
-  Convenient optical fiber access
-  Multi-energy access
-  Internal integration of lithium batteries
